

Program Description for Middle School 2021-2022

Culminating Project

Culminating Project 9

Program Code: CCUL09

Year 9 Culminating Project is a student-led project which aims to connect students' classroom learning with their personal experience to generate creative and new insights and develop deeper understanding through a depth investigation. It aims to provide students with the opportunity to engage in independent and intellectually rigorous research; develop their thinking, develop research and self-management skills; and reflect on lessons learned from their learning, research and writing process. Throughout the project, students will apply their knowledge and understanding, as well as their creative and critical thinking, research, communication, and collaboration skills that they have developed throughout their learning process.

Credit / Semester: 2

Duration: 12 Months

Participants: Year 9

Program Price:

- SMP Cikal Serpong: 383,000 (Mon), 2,298,000 (Sem), 4,213,000 (Annum)

Program Leader:

-

Design

Design 7

Program Code: DDES07

This program focuses on developing students' understanding of design cycle as a tool for problem solving. Students will develop their technical skills and critical thinking that will enable them to construct research plan in order to develop their solution; develop accurate plan, specification, and success criteria; create digital or analog two-dimensional (2D) or three-dimensional (3D) product or design; and test their chosen method and impact, as well as to plan for improving their solution.

Credit / Semester: 2

Duration: 12 Months

Participants: Year 7

Program Price:

- SMP Cikal Amri Setu: 540,000 (Mon), 3,240,000 (Sem), 5,940,000 (Annum)
- SMP Cikal Lebak Bulus: 625,000 (Mon), 3,750,000 (Sem), 6,875,000 (Annum)
- SMP Cikal Serpong: 392,000 (Mon), 2,352,000 (Sem), 4,312,000 (Annum)
- SMP Cikal Surabaya: 467,000 (Mon), 2,802,000 (Sem), 5,137,000 (Annum)

Program Leader:

-

Design

Design 8

Program Code: DDES08

This program focuses on developing students' understanding of design cycle as a tool for problem solving. Students will develop their technical skills and critical thinking that will enable them to construct research plan in order to develop their solution; develop accurate plan, specification, and success criteria; create digital or analog two-dimensional (2D) or three-dimensional (3D) product or design; and test their chosen method and impact, as well as to plan for improving their solution.

Credit / Semester: 2

Duration: 12 Months

Participants: Year 8

Program Price:

- SMP Cikal Amri Setu: 611,000 (Mon), 3,666,000 (Sem), 6,721,000 (Annum)
- SMP Cikal Lebak Bulus: 669,000 (Mon), 4,014,000 (Sem), 7,359,000 (Annum)

English Acquisition 7

Program Code: LEAC07

This program is designed to promote students' acquisition of the English Language by developing the necessary skills and intercultural understanding that will enable them to be capable communicators in English speaking environments. Students will develop the skills and understanding that will enable them to use English as a vehicle for thoughts, inquiry, reflection, and self-expression that will support their learning in other programs and their life-long learning.

Credit / Semester: 1

Duration: 12 Months

Participants: Year 7

Program Price:

- SMP Cikal Amri Setu: 299,000 (Mon), 1,794,000 (Sem), 3,289,000 (Annum)
- SMP Cikal Lebak Bulus: 347,000 (Mon), 2,082,000 (Sem), 3,817,000 (Annum)
- SMP Cikal Serpong: 221,000 (Mon), 1,326,000 (Sem), 2,431,000 (Annum)
- SMP Cikal Surabaya: 256,000 (Mon), 1,536,000 (Sem), 2,816,000 (Annum)

English Literature 8

Program Code: LELT08

Literacy and critical literacy are essential skills for life and lifelong learning. This program is designed to develop students' critical thinking, literacy and communicative skills through meaningful interactions with a variety of literary and non-literary texts. It provides students the opportunity to develop the necessary understanding and skills that will enable them to analyze a range of texts from different times, places, and cultures; organize ideas in a logical manner; produce texts that demonstrate thoughts, imagination, and sensitivity; and use language appropriate to its context and intention.

Credit / Semester: 1

Duration: 6 Months

Participants: Year 8

Program Price:

Mathematics

Extended Mathematics MYP 9

Program Code: MEMTM09

Extended Mathematics will include three levels from “most complex” to “least complex”. Ideally, the complexity levels are composed of three targets of varying difficulty aligned to each standard of LOs. The extensions are codified individually for clear designation. The last letter in the extension code indicates the complexity level: “a” denotes the highest level of complexity, “b” denotes the middle complexity level and “c” denotes the lowest complexity level. In some instances, Teachers add and/or tiered the verb of the extension to increase or decrease the complexity level. In other cases, the concept or skill within the LO is tiered across the three complexity levels. It is important to move from left to right when reading the extensions. To determine where instruction should begin, teachers should start with the general standard and then progress down through the complexity levels until finding the optimum starting point. It’s important to note that no one should categorize students according to an extension level. Instead, instruction should build skills across the extensions to the highest level possible based on individual student strengths which may vary across standards. Ideally, when teachers apply these extensions within each grade level one should see instruction occurring at all ranges of complexity. Furthermore, the complexity of Mathematics in Year 9 & 10 is preparing the students as the higher level of education, the expertise section for learning. There could be any additional concepts or topics to be learnt in for the extended program. Mathematical models will be applied as the mathematical language and communication.

Credit / Semester: 2

Duration: 12 Months

Participants: Year 9

Mathematics

Mathematics 7

Program Code: MMAT07

This program is designed to develop students' inquiry, critical thinking, communication, and reflection skills, and to develop their mathematical reasoning and skills in order to investigate patterns, make deductions, and solve problems in familiar and unfamiliar situations. Students will develop their understanding and skills that will allow them to select and apply appropriate mathematics to solve problems correctly; proof, verify and justify mathematical relationship and/or general rules; and apply their mathematical learning to solve problems in real-life contexts and be able to justify their solutions.

Credit / Semester: 2

Duration: 12 Months

Participants: Year 7

Program Price:

- SMP Cikal Amri Setu: 540,000 (Mon), 3,240,000 (Sem), 5,940,000 (Annum)

Personal and Social Education

Personal and Social Education 7

Program Code: PPSE07

Personal and Social Education (PSE) aims to help students develop healthy self-concept, identity and relationship with others. Students will identify their characteristics and appreciate their uniqueness to develop their self-concept. They will develop an understanding of how the physical changes that they will experience during puberty as well as at different stages in their lives, affect their evolving identity. They will also develop an understanding that will allow them to differentiate between healthy and healthy relationships. They will also identify challenges during the transition to Middle School. Students will explore and develop their learning preferences and strategies and improve and modify them along the way in order to achieve their goals.

Credit / Semester: 1

Duration: 12 Months

Participants: Year 7

Program Price:

- SMP Cikal Amri Setu: 325,000 (Mon), 1,950,000 (Sem), 3,575,000 (Annum)
- SMP Cikal Lebak Bulus: 379,000 (Mon), 2,274,000 (Sem), 4,169,000 (Annum)
- SMP Cikal Serpong: 245,000 (Mon), 1,470,000 (Sem), 2,695,000 (Annum)
- SMP Cikal Surabaya: 277,000 (Mon), 1,662,000 (Sem), 3,047,000 (Annum)

Program Leader:

-

Personal and Social Education

Personal and Social Education 8

Program Code: PPSE08

Personal and Social Education (PSE) aims to help students develop healthy self-concept, identity and relationship with others. Among others, students will identify methods and strategies for good self-care. As students understand themselves better, they will evaluate their learning strategies and modify them in order to achieve their desired goal. In interacting and resolving conflict with others, they will identify strategies to achieve positive outcomes.

Credit / Semester: 1

Duration: 12 Months

Participants: Year 8

Program Price:

- SMP Cikal Amri Setu: 368,000 (Mon), 2,208,000 (Sem), 4,048,000 (Annum)

Personal and Social Education

Personal and Social Education 9

Program Code: PPSE09

Personal and Social Education (PSE) aims to help students develop healthy self-concept, identity and relationship with others. Among others, students will develop an understanding of their personal qualities, and develop skills and strategies that will enable them to manage their interpersonal relationships and to handle conflict and stress. They will develop the skills necessary for making decisions and choosing alternatives in planning and pursuing their educational and career goals.

Physical and Health Education MYP 9

Program Code: HPHEM09

MYP Physical and Health Education aims to empower students to understand and appreciate the value of being physically active and develop the motivation for making healthy life choices. To this end, physical and health education courses foster the development of knowledge, skills and attitudes that will contribute to a student's balanced and healthy lifestyle. Through opportunities for active learning, courses in this program embody and promote the holistic nature of well-being. Students engaged in Physical and Health Education will explore a variety of concepts that help foster an awareness of physical development and health perspectives, empowering them to make informed decisions and promoting positive social.

interaction.

Cikal Aksi-Aksi 8

Program Code: KSEL08

Cikal Aksi-Aksi aims to develop students' sense of community responsibility through service, orientation to action, leadership, collaboration, and partnership. Students will undertake meaningful, impactful, as well as personally and socially relevant service activities. They will develop skills and understanding that will enable them to analyze underlying societal issues and identify possible solutions that may contribute to long term changes. They will incorporate meaningful reflection as a strategy to implement alternative solutions. Through working with others, they will develop their communication, innovation, and collaboration skills.

Credit / Semester: 1

Duration: 12 Months

Participants: Year 8

Program Price:

- SMP Cikal Amri Setu: 338,000 (Mon), 2,028,000 (Sem), 3,718,000 (Annum)
- SMP Cikal Lebak Bulus: 371,000 (Mon), 2,226,000 (Sem), 4,081,000 (Annum)
- SMP Cikal Serpong: 216,000 (Mon), 1,296,000 (Sem), 2,376,000 (Annum)
- SMP Cikal Surabaya: 256,000 (Mon), 1,536,000 (Sem), 2,816,000 (Annum)

Social Studies

Individuals and Societies 9

Program Code: IINS09

This program is designed to develop students' understanding and attitude towards the world around them. Through learning about and applying scientific methods used by social scientists, they will develop the necessary skills that will allow them to inquire, analyze, research, synthesize and interpret different information, and justify their view critically and sensitively regarding the historical, contemporary, geographical, political, social, economic, religious, technological and cultural factors that affect individuals, societies and environments while considering different views and perspectives, as well as both the local and global contexts. The study of Social Studies helps students to critically appreciate the diversity of human culture, attitudes, and beliefs.

Credit / Semester: 2

Duration: 12 Months

Participants: Year 9

Program Price:

- SMP Cikal Amri Setu: 647,000 (Mon), 3,882,000 (Sem), 7,117,000 (Annum)
- SMP Cikal Lebak Bulus: 695,000 (Mon), 4,170,000 (Sem), 7,645,000 (Annum)

Creative Writing - Secondary [A]

Program Code: LCWA0708

In this program, students do more than just writing. They explore thinking and writing strategies and tools such as mind-mapping and brainstorming, that would help them process information and transform their thoughts and ideas into coherent writing. Introduces imaginative writing by focusing on the development of plot, character and theme for fictional narratives and development of thesis statements and ideas (argumentation) for nonfiction essays. Students will try dozens of approaches, a few of which they will develop into published products. The course offers methodologies and techniques that can enable students to write better in any situation.

Credit / Semester: 1

Duration: 6 Months

Participants: Year 7, Year 8

Mathematics

IGCSE Mathematics 9

Program Code: MMIGG09

The program supports students in building competency, confidence and fluency in their use of techniques and mathematical understanding. They can develop a feel for quantity, patterns and relationships as well as their reasoning, problem-solving and analytical skills in a variety of abstract and real-life contexts. Cambridge IGCSE Mathematics provides a strong foundation of mathematical knowledge both for students studying mathematics at a higher level and those who will require mathematics to support skills in other subjects.

Credit / Semester: 2

Duration: 12 Months

Participants: Year 9

Program Price:

- SMP Cikal Amri Setu: 798,000 (Mon), 4,788,000 (Sem), 8,778,000 (Annum)

Sciences

IGCSE Computer Science 9

Program Code: SCSCG09

This program will encourage students to study the principles and practices of computing and gain confidence in computational thinking and programming. They learn to program by writing computer code and they develop their understanding of the main principles of problem-solving using computers. Students apply their understanding to develop computer-based solutions to problems using algorithms and a high-level programming language. They also develop a range of technical skills, as well as the ability to test effectively and to evaluate computing solutions.

Credit / Semester: 2

Duration: 12 Months

Participants: Year 9

Program Price:

- SMP Cikal Amri Setu: 798,000 (Mon), 4,788,000 (Sem), 8,778,000 (Annum)
- SMP Cikal Serpong: 492,000 (Mon), 2,952,000 (Sem), 5,412,000 (Annum)

Program Leader:

-

Sciences

IGCSE Science Combined 9

Program Code: SSCMG09

This program gives learners the opportunity to study Biology, Chemistry and Physics, each covered in separate syllabus sections. Learners gain an understanding of the basic principles of each subject through a mix of theoretical and practical studies, while also developing an understanding of the scientific skills essential for further study.

Credit / Semester: 2

Duration: 12 Months

Participants: Year 9

Program Price:

The Science of Cooking

Program Code: STSC0910

This program provides opportunities for students to explore and investigate the sciences principles in cooking ingredients and cooking processes. They will learn about the physical and chemical transformations of ingredients that occur in cooking, the heat transfer in cooking and also learn about the science aspects of vegetables and spices. As a result, students will show their understanding by creating their creativity to produce their own recipe to cook with a specific purpose.

Credit / Semester: 1

Duration: 6 Months

Participants: Year 9, Year 10

Program Price:

- SMA Cikal Amri Setu: 402,000 (Mon), 2,412,000 (Sem)
- SMA Cikal Serpong: 313,000 (Mon), 1,878,000 (Sem)
- SMA Cikal Surabaya: 264,000 (Mon), 1,584,000 (Sem)

Research and Methodologies - Secondary [A]

Program Code: IRMO0708

This program provides the basic information about research methods. The theoretical background to research and the ways of thinking that lead to the different ways of carrying out investigations and coming to conclusions. It covers the tools used in research, the situations in which they are applied to help build understanding on what is involved in carrying out a research project. It will also help to evaluate the claims made by academics, experts of all kinds, politicians, advertisers, etc. by judging the quality of the evidence provided by the research on which they base their arguments.

Credit / Semester: 1

Stage Production - Secondary [A]

Program Code: ADSP0708

This program is designed to develop students' artistic understanding as well as their creativity, technical and communicative skills through individual and collaborative dramatic production and/or performance. Students will develop their technical skills and an understanding of the contexts, concepts, and processes within the dramatic arts. They will be encouraged to accept feedback from others. They will also be provided with the opportunity to explore different tools and mediums to solve problems and convey their ideas through their dramatic production and/or performance. They are encouraged to engage and express their opinions regarding existing and emerging dramatic production and/or performance from different places, culture, and times.

Credit / Semester: 1

Duration: 6 Months

Participants: Year 7, Year 8

Program Price:

- SMP Cikal Amri Setu: 534,000 (Mon), 3,204,000 (Sem)
